# All Members Monthly Meeting

## Special Topic Meeting

IAM and SSI: A Combined Approach to Digital Identity

Wednesday, June 15, 2022

10:00-11:00 am PT / 17:00-18:00 UTC

# Antitrust Policy & Member Participation

- › Attendees are reminded to adhere to the meeting agenda and not participate in activities prohibited under antitrust and competition laws\*
- › Only members of Trust Over IP who have signed the necessary agreements and charters are permitted to participate in this activity beyond an observer role

\* Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>

# Agenda

- Agenda Review (1 min)
- Foundation Wide Announcements (5 min)
- Special Topic -  
IAM and SSI: A Combined Approach to Digital Identity
- Open Discussion

# Foundation Wide Announcements

- ToIP - OIX BLOG Post and Press release published today. The two organizations have been working to assure that SSI in documented will in the OIX Trust Framework.  
<https://trustoverip.org/news/2022/06/15/achieving-trusted-digital-transactions-across-the-globe-oix-and-toip-align-to-make-it-happen/>
- The Technology Architecture Task Force is moving the ToIP Technology Architecture Specification to GitHub and will soon start accepting issues being posted and discussed, which should make it easier for other ToIP members (who are not in the TATF) to comment.

# Foundation Wide Announcements

- GSWG - Template Task Force - meeting today at 3pm PT  
"Rethinking ToIP Governance across the Layers of the Stack"
- GSWG - Chair's Request:  
The Beta Version of the UK Digital Trust Framework has just been issued:  
<https://www.gov.uk/government/publications/uk-digital-identity-and-attributes-trust-framework-beta-version>. I'd like to see our members review this. We may have a joint comment work issuing.
- Your Skills are Needed: - CTWG

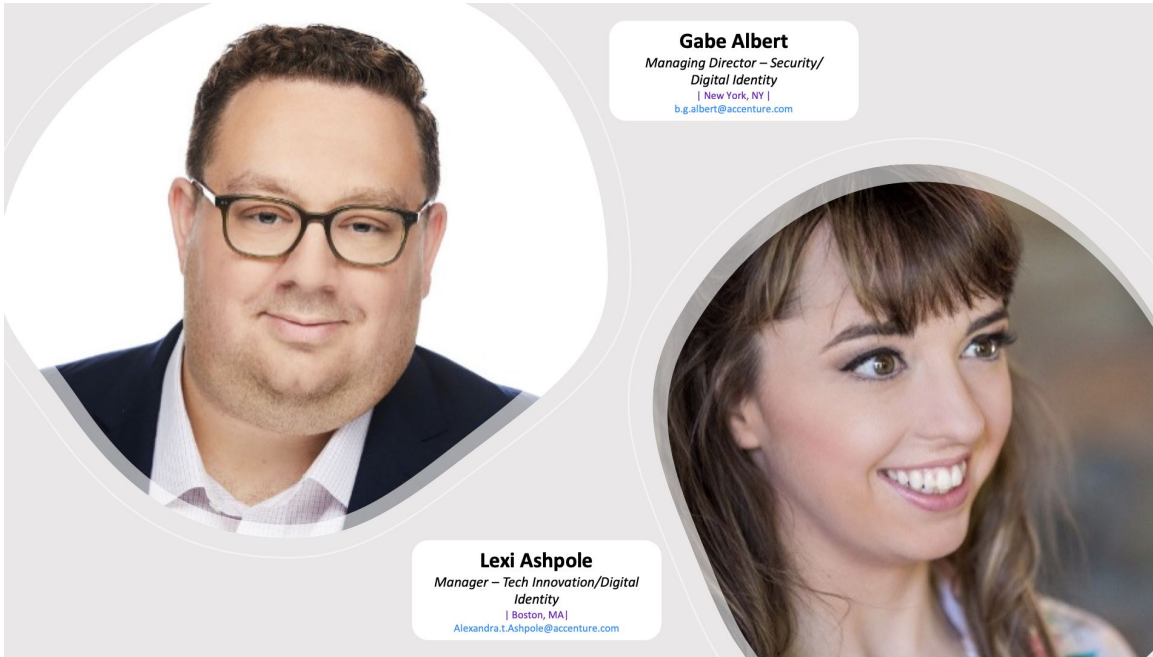

## CTWG - developer opportunity

- The Concepts and Terminology Working Group is developing a **second generation** of its **Terminology Toolbox** — a small set of GitHub tools to enable our WGs and TFs (and others) easily create, curate, and use **glossaries**
- We have one developer volunteer; we are seeking a **second**
- Relevant skills:
  - Text transformation and processing (especially Markdown)
  - CI/CD pipelines
  - Github workflows using GitHub actions
  - Javascript / HTML (prototype being developed in Java)
- If interested, reply to Drummond's email to all-member list
