### **JULY 8th Communications Meeting**

Primary Topics:

1. Website Updates
2. Dublin Conference Marketing

## Action Item Updates

- Editorial Calendar
- Trademark Registration
- Video Content
- Discussion Papers onto LinkedIn
  - Judith has circle back with Alex Metcalf and Neil
- LinkedIn Cover Photo and YouTube Banner - ToIP Tagline
  - How do we wish to proceed in nailing down our Tagline?

# LinkedIn Discussion Papers

A couple of suggestions:

- Put the two discussion papers on LinkedIn and see if we get more traction.

- Q (@Alex Metcalf

- How would the papers be organized on linked, would there be some entry with a list of discussion papers (and links to each one)?

- How are comments handled? Notification of comments to author?

- Leave the current ones on the web site and the page with a list of discussion papers (for now).

Side Question - @Alex Metcalf how do we handle discussion paper revisions to either a web site or linked in entry. I have some recent updates (extensions) to one or possibly both of the discussion papers. How does an author do the updates - update the original google doc or update the web page/linked in entry directly?

To answer the other questions with my suggestions:

- Each paper could be a separate article within LinkedIn

- Comments could be handled by whoever gets there; the official account holder for Trust Over IP, or yourself Neil, or anyone in a position to speak on behalf of ToIP / the discussion papers.

- Revisions... I'm not sure. Perhaps if we maintain a website-based version of the same paper, we update that, and then signpost people to the updates on the website.

## Ajay's Proposal - Update?

➤ Ajay offered create some videos, how do we want to proceed with that and creating an editorial calendar.

1. Use the TOIP Stack Design Principles as the theme for the video podcast.
2. So there can be 17 principle episodes and 1 context setting episode making it a total of 18 episodes.
3. Each episode will be under 5 minutes and explain the principle, illustrate it with a diagram, and help contextualize it through one or more real-world use cases.
4. I will shoot these episodes with a camera person from Angel and edit them before presenting it to the committee for a second round of edits/ fine tuning.
5. May I propose we do the first 5 sessions with John and Drummond so I can cover them in a two-day trip to Seattle and Vancouver.
6. They will both be interviewed for the context setting episode. John can do design principles #1 and #3, and Drummond can do #2 and #4.
7. We will do several takes and get into a rhythm and a format for the video podcast series.
8. They can be released bi-weekly and that will give us a chance to record and edit the next 5 or so where the TOIP expert can be different.
9. The subsequent ones can be recorded remotely.

## Linked In Cover Photo

- What do we want our LinkedIn cover photo to say?

Join us in delivering policy and technology tools for private, secure, and confident communications at a global scale.
