

**TRUST**  
Over **IP**  
FOUNDATION

# Semantic Domain *(ISWG-S)* Weekly Meeting

23 February 2021

 THE **LINUX** FOUNDATION

## Antitrust Policy Notice

- › Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- › Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

## Membership Advisory

- › For the protection of all Members, active participation in working groups, meetings and events is limited to members, including their employees, of the Trust over IP Foundation who have signed the membership documents (including Trust over IP membership agreement as well as relevant working group charters) and thus agreed to the intellectual property rules governing participation.
- › If you or your employer are not a member, we ask that you not participate in meetings by verbal contribution or otherwise take any action beyond observing.

# Agenda

- › 1. Welcome (Paul—2.5 mins)
- › 2. Newcomer Introductions (Paul—2.5 mins)
- › 3. Task Force Updates (WG—5 mins)
- › 4. Update from the FHIR FG (John / Mukund—15 mins)
- › 5. Schema design for COVID-19 vaccination reporting and other coronavirus-related data capture requirements (Paul—20 mins)
- › 6. Update: MMM white paper (Neil/Paul—10 mins)
- › 7. Logistics and miscellaneous (Paul—5 mins)
  - › a. News from the Operations Team
  - › b. Leadership positions
  - › c. Meeting schedule

# Newcomer Introductions

## (30 seconds!)

1. Name
2. Location / time zone
3. Affiliation(s)
4. One-sentence summary of your interest in Semantics (or **one particular semantics-related** issue you personally want to see solved)

# Task Force/Focus Group Updates (5 mins)

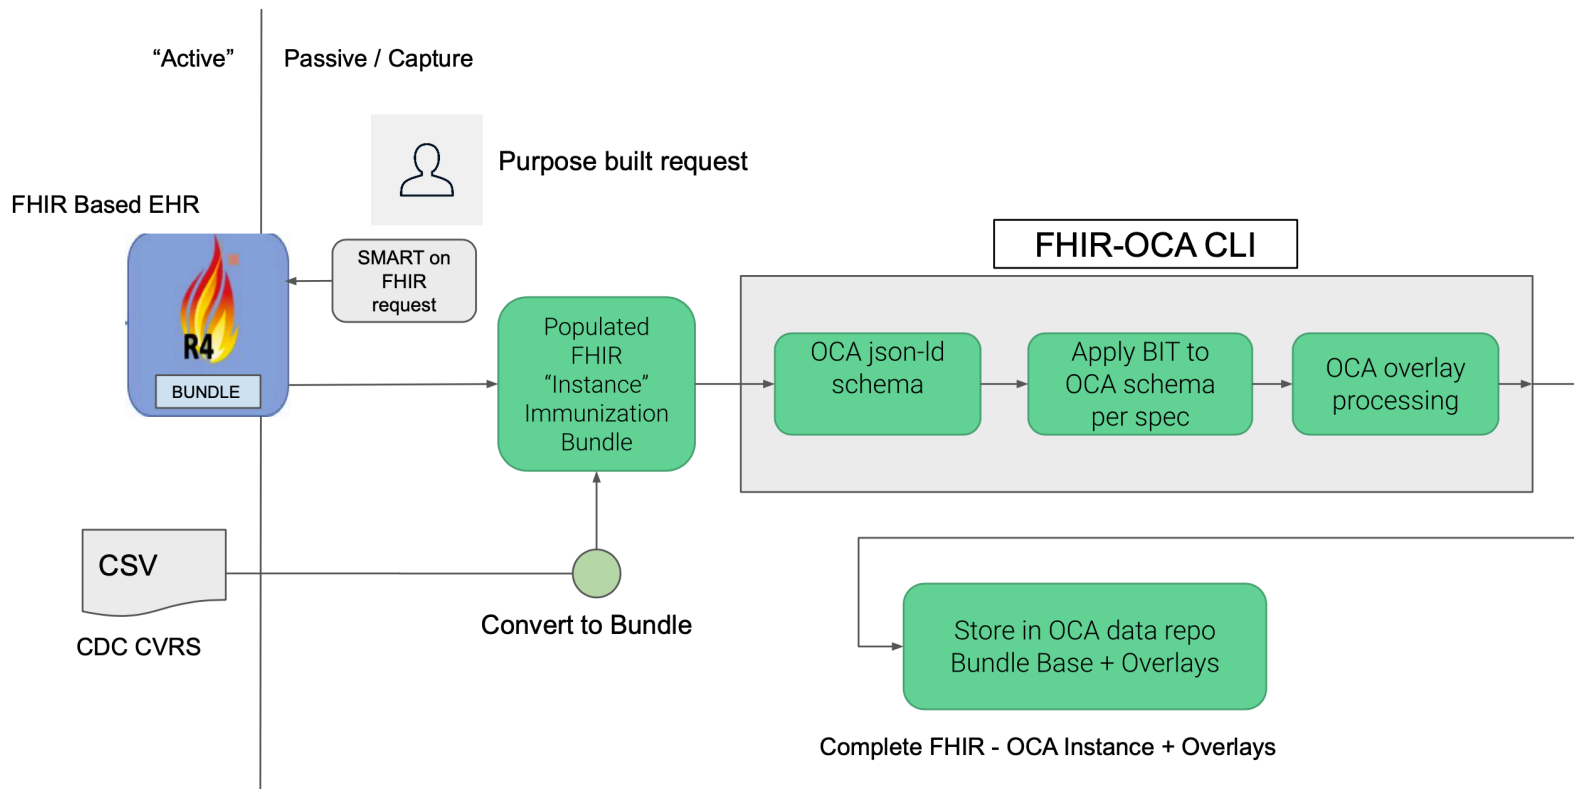

- Medical Information TF (Scott)
- ✓ FHIR FG (John/Mukund)
- Notice & Consent TF (Mark)
- Privacy & Risk TF (Jan)
- Storage & Portability TF (Christoph)

# Update from the FHIR FG (15 mins)

Presented by: J.Walker/M.Parthasarathy

<https://editor.oca.argo.colossi.network>

# FHIR-OCA CLI Conversion Processing Demo

# Schema design for COVID-19 vaccination reporting and other coronavirus-related data capture requirements (20 mins)

Presented by: P.Knowles

<https://www.cdc.gov/vaccines/covid-19/reporting/requirements/cvrs-v2.5.html> (US only)

[https://ec.europa.eu/health/sites/health/files/ehealth/docs/vaccination-proof\\_interoperability-guidelines\\_en.pdf](https://ec.europa.eu/health/sites/health/files/ehealth/docs/vaccination-proof_interoperability-guidelines_en.pdf) (EU only)

# COVID-19 Credentials Initiative (CCI) Schema Task Force

*Schemas* and *Profiles* are domain-specific (e.g., a demographics schema or demographics profile). *Forms* and *Credentials* are a digital representation of a paper document (e.g., a visa waiver form or visa waiver credential). For this task force, we want to stay domain-focussed so that there is a separation of scope with the [#cci-vaccinecredentialsfg-us](#) group. The differentiation between profiles and credentials is important when it comes to data storage and portability.

CCI – <https://www.covidcreds.org>

**#cci-schema-tf**

[Main contacts: P.Knowles / J.Walker]

## Overview: CCI Schema TF kickoff meeting (Mon., Feb.22)

1. CCI Schema TF to be a fulcrum for all COVID-related schema definitions
2. COVID schema repository to be housed at LF Public Health
3. Designing a Minimal Viable Schema (MVP), a generic cross-jurisdictional multilingual schema specification
4. Include Codes of Practice, legal prose for purpose of use and data governance requirements
5. Identify other groups that are doing complimentary work and discuss collaboration
6. Create developer-friendly implementation documents for different data models and data representation formats

[Main contacts: P.Knowles / J.Walker]

# CDC COVID-19 Vaccination Reporting Specification v2.5 (US only)

The screenshot shows the CDC website for COVID-19 Vaccination Reporting Systems. The main heading is "CDC COVID-19 Vaccine Reporting Specifications (CVRS) Instructions Version 2.5". The page includes a navigation menu on the left with categories like "Product Info by US Vaccine", "Clinical Care", "Provider Requirements and Support", "Training and Education", "Recipient Education", "Planning & Partnerships", "Vaccination Toolkits", and "COVID-19 Vaccination Reporting Data Systems". The main content area features an "Introduction" section with the following text: "This specification defines the COVID-19 vaccination reporting requirements to the Centers for Disease Control and Prevention's (CDC) COVID-19 Data Clearinghouse (DCH). Whenever possible, existing and new connections between provider organizations and immunization information systems (IISs) should be leveraged to report vaccinations directly to IISs. This specification addresses how IISs will report these data to CDC's DCH, as well as how provider organizations that are unable to report to IISs can still report to CDC's DCH to ensure a comprehensive accounting of administered doses of COVID-19 vaccine." Below the introduction, it states: "Currently, this specification supports the submission of redacted and identified case-level data. The 'Redacted Extract Fields' tab includes reference(s) to identified data elements, but these elements may be populated with 'Redacted' or an appropriate coded value." On the right side of the page, there is an "On This Page" section with links to "Introduction", "Data Conventions", "Extract File Conventions", "Daily Extract Criteria for COVID-19 Vaccines", and "Extract Timing".

# Update: MMM white paper (10 mins)

Presented by: N.Thomson/P.Knowles

[https://docs.google.com/document/d/11rDi\\_UnuETDh19gPRxq9yUBu2L2WJ2EQHpmom7f5VA/edit](https://docs.google.com/document/d/11rDi_UnuETDh19gPRxq9yUBu2L2WJ2EQHpmom7f5VA/edit)

# Master Mouse Model (MMM) white paper

ISWG white paper proposal (draft)

Ref.:

[https://docs.google.com/document/d/11irDi\\_UnuETDh19gPRxq9yUBu2L2WJ2EQHpmmom7f5VA/edit](https://docs.google.com/document/d/11irDi_UnuETDh19gPRxq9yUBu2L2WJ2EQHpmmom7f5VA/edit)

## Master Mouse Model:

A template framework for an open data network

[Inputs and Semantics WG, Trust over IP]

The open data network we propose has to allow digital services to exchange personal data on demand of their users. Following the Separation of Powers Principle (SPP), data transfers require users' permissions through their Personal Data Operators, which never see or access transferred data but rather act as a switch for the transfer. Permissions and transfer work on two separate layers.

## Overview

The Master Mouse Model (MMM) is a model architecture representing any economic actor in a dynamic data economy. In a citizen-centric ecosystem, *purpose-based service providers*, *data governance authorities*, and *insights-based service providers* provide a template framework for an open data network.

Figure 1: Master Mouse Model, a template framework for an open data network

# Logistics and miscellaneous (5 mins)

## News from the Operations Team

### **Nick Hayfack**

*(Inputs and Semantics WG representative on the ToIP Operations Team)*

The purpose of the Operations Team is to create a small group of ToIP members who will share information on the workplans of our WGs, help ensure that draft deliverables are advancing as intended through the stages of the ToIP workflow, resolve any bottlenecks that arise around decision-making/approvals and discuss issues such as (for example) introducing firmer parameters for the creation of Taskforces under all WGs.

The Operations Team will not be directing or otherwise interfering with the development of content and deliverables in the WGs themselves.

## ISWG Leadership positions

- › Inputs Group Chair
  - › **Robert Mitwicky**
- › Inputs Group Vice-chair
  - › **Sam Smith**
- › Semantics Group Chair
  - › **Paul Knowles** (*ISWG Lead*)
- › Semantics Group Vice-chair
  - › **John Wunderlich**
- › Volunteer via the meeting page at ...
  - › <https://wiki.trustoverip.org/display/HOME/2021-02-23+Meeting>

# Meeting schedule

- › **Inputs Group** weekly meeting
  - › Wednesday, **February 24th** @ 09:00 US PT / 18.00 CET
  - › Zoom link: <https://zoom.us/j/93406719136?pwd=SUozZHBQM0N5TUhYMhJqL0ZQM3l3Zz>
- › **Storage & Portability TF** bi-weekly meeting
  - › Monday, **March 1st** @ 09:00 US PT / 18.00 CET
  - › Zoom link: <https://zoom.us/j/96177500988?pwd=cDVNS2JzN1YxYXhiUVprWlM0OGQxQT09>
- › **FHIR FG** bi-weekly meeting
  - › Thursday, **March 4th** @ 08:00 US PT / 17.00 CET
  - › Zoom link: <https://zoom.us/j/93406719136?pwd=SUozZHBQM0N5TUhYMhJqL0ZQM3l3Zz09>
- › **Notice & Consent TF** bi-weekly meeting
  - › Thursday, **March 4th** @ 08:30 US PT / 17.30 CET
  - › Zoom link: <https://zoom.us/j/92346573961?pwd=RmZHNnQxS2lya3NCMHZTVXYra3Rrdz09>
