The Ecosystem of Ecosystems Model

Examples only!

The ToIP Governance Metamodel

- Developed by the ToIP Governance Stack Working Group
- Covers all recommended standard components of a robust governance framework for digital trust infrastructure
- Is already being used by over a dozen GFs in development
- Documented on the ToIP wiki here:
<https://wiki.trustoverip.org/display/HOME/ToIP+Governance+Metamodel>

Proposed Next Steps

1. Review and comment on the proposed outline for the Good Health Pass Ecosystem Governance Framework
2. Work on the [Glossary](#)
3. Prepare a mapping of other Drafting Groups into the sections of the GHP EGF
4. Create a Policy Drafting Guidance document
5. Begin mapping cross-dependencies between Drafting Groups
 - a. Example: the Trust Registries DG needs specific data elements from the Credential Formats DG and specific requirements from the Security, Privacy, and Data Protection DG
