* Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>

Agenda

- Agenda Review (1 min)
- Welcome New Members (1 min)
- Foundation Wide Updates and Announcements (3min)
- Guest Speakers from Content Authenticity Initiative
- Open Discussion

Foundation Wide

Updates & Announcements

V3.0 ToIP Stack Diagram Deck

Special Thanks to John Phillips!

- **We have decided that a single diagram to explain the ToIP Stack is not enough for various audiences.**
- **John has come up with a design plan so that we can have a set of unified diagrams that meet specific purposes and audience. “Think a set of architectural blueprints”**
- **If you want to learn more about the structure or help with the diagrams for you specific work group, feel free to reach out to you WG Chair or Judith**

Spring Conference Season

- **OSS North and IIW are the same week (April 16-18).**
- **EIC is June 4-7 in Berlin.**
ToIP will be well represented in session accepted by various Steering Committee
- **If you are speaking at other conferences and can include ToIP in your presentation, we are happy to help, just reach out and let us know where you are speaking.**

Guest Speakers

Santiago Lyon,
Head of Advocacy and Education
Content Authenticity Initiative at Adobe

Eric Scouten,
Senior Engineering Manager
Content Authenticity Initiative at Adobe

Content Authenticity Initiative

The Content Authenticity Initiative was formed in 2019 as a partnership between Adobe and the New York Times and has since grown to over 2000 members who share an interest in promoting transparency in content provenance. We do this by promoting open technical standards to make content provenance information readily available to content producers and consumers, through creating open source software that implements those standards, and through education to ensure public awareness and adoption of these standards. Santi will talk about the current state of adoption and our education efforts and Eric will provide an introduction to the current technical standards and upcoming work that draws upon the work of Trust Over IP.
