Mission

The X.509 VID Task Force (X5VTF) is a task force of the ToIP Technology Stack Working Group, which intends to explore how X.509 identifiers can be part of the ToIP verifiable identifier landscape.

For a complete overview of the development process for the ToIP technology stack, see Evolution of the ToIP Stack.

Deliverables

The deliverable of this Task Force is the did:x509 Method Specification that must meet the requirements of a verifiable identifier (VID) as specified in the ToIP Technology Architecture V1.0 Specification and the draft ToIP Trust Spanning Protocol Specification. The requirements in this specification must interoperate with other ToIP component specifications as explained in the Evolution of the ToIP Stack.
