Ecosystem Foundry Working Group

Mission and Scope (as defined in the WG charter)

The scope of the Ecosystem Foundry Working Group is to facilitate a community of practice among governance authorities, implementers, operators, and service providers of Trust over IP Layer Four ecosystems. The WG will provide process guidance for the establishment and monitoring of new ToIP Layer Four ecosystem projects, whether hosted at the Linux Foundation or external to it. Other WG activities will include creating template RFPs for service providers, maintaining a list of affiliated Foundry Service Providers, identifying areas of collaboration and alignment between associated and/or disparate ecosystems, and where possible serving as a center of competence for the education and promotion of the role of ToIP Layer Four ecosystems.

Conveners

• Karl Kneis and Mike Vesey (additional volunteers: Will Groah, Jeff Hallet, Jim St. Clair)

Chairs

To be elected
