Mission

The mission of the GSWG Governance Architecture Task Force (GATF) is to draft a TSS (ToIP Standard Specification) that defines the standard requirements for all ToIP-compatible governance frameworks. **Note:** this is meant to be a counterpart to a ToIP Technical Architecture TSS deliverable from the Technical Stack WG.

Deliverables

1. **ToIP Governance Architecture Requirements and Design Principles**—a recommendation of the essential requirements and core design principles that guide the development of the ToIP Governance Architecture TSS.
2. **ToIP Governance Architecture TSS**—a specification of the requirements that any ToIP-compatible governance framework must meet. Some requirements are expected to be layer-independent while others will depend on the specific ToIP layer the governance framework is intended to govern.

Conveners

Please add your name to this list if you wish to be a convener:

- Drummond Reed, Evernym
- Scott Perry, SSPCPA

Membership and Joining

Prior to participating in the meetings please ensure that you are a member of the Trust Over IP Foundation. Contributor level membership is available to anyone at no cost. Details can be found at this link.
