Technical Stack Working Group

Mission and Scope (as defined in the WG charter)

The scope of the Technical Stack Working Group is to define (directly or by reference) the technical standards, test suites, and interoperability certification standards for the Trust over IP architecture stack as defined in Hyperledger Aries RFC 0289 (or its successor as identified in the RFC document itself).

Chairs and Vice-Chairs

- Co-Chair: Dan Gisolfi (IBM)
- Co-Chair: Matt Davies (Finicity)
- Co-Chair: Darrell O'Donnell (Continuum Loop)
- Vice-Chair: Ajay Jadhav (AyanWorks)
