Utility Foundry Working Group

Introduction

The Utility Foundry Working Group support the emergence, alignment and operation of utilities that provide the cryptographic basis of trust for digital identities, key management and verifiable credentials.

Scope

Facilitate a community of practice among governance authorities, implementers, operators, and service providers for Trust over IP Layer One utilities. The WG will provide process guidance for the establishment and monitoring of new ToIP Layer One utility projects, whether hosted at the Linux Foundation or external to it. Other WG activities will include creating template RFPs for service providers, maintaining a list of affiliated Foundry Service Providers, identifying areas of collaboration and alignment between associated and/or disparate Utilities, and where possible serving as a center of competence for the education and promotion of the role of ToIP Layer One utilities.

Meetings

Schedule:

US/EU: Meetings are held bi-weekly, every other Tuesday at (TBC)

APAC: Meetings are held monthly, every Tuesday ,(at 11.30) IST first week of the month.
