

# ToIP Standard Specification (TSS) Process Task Force

## Objective

Establish a formal process for the delivery of ToIP recommendations.

## Disclaimer

This TF is foundational to the ToIP mission. We may need to decide if TSS is the actual deliverable.

## Deliverable

1. Define the purpose of a TSS
2. Define the purpose of a TIP (ToIP Interoperability Profile)
3. Define how a TIP graduates to a TSS (or does it)?
4. Bootstrap our process where possible by deriving Aries RFC process and concepts (where applicable)
5. Establishment of a new ToIP repo for TSS processing
6. Prime the TSS with its first entry – [Aries ToIP Stack](#)

## Proposed Schedule

- Complete all deliverables by 31-Dec-2020.

## Members

Interested participants should add their names:

- Dan Gisolfi
- Drummond Reed
- Daniel Hardman
