## Attendees

[Alex Tweeddale](#) [Lynn Bendixsen](#)

[Jessica Townsend](#) [Joachim Miller](#)

[Markus Sabadello](#) [filipe pinto](#)

## Goals

- Assign action items for next meeting
- Establish work plan for WG deliverables and workflow guidance
- Gather agenda suggestions for next meeting

## Antitrust Policy

### Antitrust Policy & Member Participation

- › Attendees are reminded to adhere to the meeting agenda and not participate in activities prohibited under antitrust and competition laws.\*
- › Only members of Trust over IP who have signed the necessary agreements and charters are permitted to participate in this activity beyond an observer role.

\* Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>.

 THE **LINUX** FOUNDATION

## Agenda Items

Time	Item	Who	Notes
1 min	Welcome		
2 mins	Antitrust Policy Notice		

5 mins	Announcements	Chairs & All	<ul style="list-style-type: none"> <li>Cardea and Linux Foundation Public Health are pleased to invite you to our Interop-a-thon that will take place on <b>June 16, 2022, 8:00am-12:00pm MST (see additional details below in announcements)</b></li> <li>Discussion to be scheduled next week to discuss building of governance frameworks for the stack (wrap governance for layers 1-3 under consideration)</li> </ul>
10 mins	Action Item Review	Chairs	<input type="checkbox"/> Review confluence page for evaluation criteria - <a href="#">List of Considerations When Choosing a Utility</a> <input type="checkbox"/> Deliverable 1: Review Discussion - <a href="#">ToIP Layer 1 - Utility Foundry - Google Docs</a>
15 mins	What's Next	A. Tweeddale	<ul style="list-style-type: none"> <li>On Tuesday 21st June, we have Keith Kowal coming to speak about <a href="#">Hedera</a> - more on this to come soon.</li> <li>New deliverables</li> <li>Close out - Deliverable 1: Review Discussion - <a href="#">ToIP Layer 1 - Utility Foundry - Google Docs</a></li> <li>Discuss how we can help contribute to a ToIP Governance Template. After recent discussions, we have come to the conclusion that Layer-specific governance may need to be rethought slightly.</li> <li>Discuss how we could incorporate both Blockchain and also non-blockchain alternatives such as Hedera, KERI, Orb, Nymtech</li> <li>Deliverable 2: <a href="#">What should go on-ledger: Decentralized Identity &amp; Regulatory Compliance</a></li> </ul>
0 mins	Updates on Utilities	L. Bendixsen	
0 mins	Q&A	N/A	

## Announcements

- ☐ Cardea and Linux Foundation Public Health are pleased to invite you to our Interop-a-thon that will take place on **June 16, 2022, 8:00am-12:00pm MST**. Please read this blog with further details about the event [here](#). This interactive event will comprise teams across the verifiable credentials community testing products and solutions both in the market and in development for interoperability. The goal is to discover what needs to be done to ensure that all are fully interoperable with Cardea and with one another. Participants will come away with an understanding of where the gaps are in interoperability and how they can be fixed. Observers are also welcome to attend!! I have added this here because those who would like to bring their own network to this event are also welcome to participate!

## Task Force SOS (Scrum of Scrums)

TF Name	Mission	Members	Status
<b>Public Identity Utilities for Digital Trust Ecosystems - an Overview</b>	This document provides a comprehensive framework on how to evaluate whether an existing <b>Layer 1 Public Utility (Utility)</b> will meet your needs as a consumer or considerations that should be made when looking to develop a Self-Sovereign Identity ("SSI") ecosystem of your own.	<a href="#">Alex Tweeddale</a>  <a href="#">Lynn Bendixsen</a>  <a href="#">Jessica Townsend</a>	<b>Ready for Steering review/signoff - ToIP Layer 1 - Utility Foundry - Google Docs</b>
<b>DID Utility Comparison</b>	Rubric with criteria for choosing a utility to support evaluation	<a href="#">Alex Tweeddale</a>	<a href="#">Alex Tweeddale</a>
<b>Decentralized Identity &amp; Regulatory Compliance</b>			<a href="#">What should go on-ledger: Decentralized Identity &amp; Regulatory Compliance</a>

## Decision Points

## Discussion Items

- Overview of GoDiddy - hosting platform for SSI development/solution providers to support resolving, managing and searching for DiDs - listen to recording starting at 10 min into start of meeting

## Open Items

*Low priority items that failed gain volunteers to champion cause.*
