This is how we can begin the process of defining and relating all these terms with greater clarity and precision. Please feel free to add any term you think is missing — and to add your own definition for a term that needs one (or you feel should have a different definition than it already has — it is <b>okay</b> for terms in this Workspace to have more than one definition). This should also give us the raw materials needed to build any helpful mental models.</li> <li>Terms need to share the scope of the word within certain contexts</li> </ul>

#1 Candidate for TRTF Objective:

The objective of the Trust Registry Task Force is to develop the **ToIP Trust Registry Protocol**.

The purpose of the **ToIP Trust Registry Protocol** is to support the participation in a **trust community** and enable **trust tasks**.

A **trust registry** provides authoritative information in relation to a **governance framework** needed to perform **trust tasks** and inform **trust decisions**. |
