For the GSWG 2023-09-21 meeting, please generate a 300-500 word Executive Summary followed by a detailed list of announcements and discussion topics, elaborating as much as possible.

Several important topics were discussed during the GSWG meeting on September 21, 2023. The main goal of the meeting was to understand the opportunity to create a governance framework for dual-stack interoperability. The meeting started with introducing new members and reviewing the action items from the previous session.

One key announcement during the meeting was that Karla would be presenting an updated GLEIF Ecosystem Governance Framework on October 5. This presentation will provide valuable insights and updates on the governance framework.

Another important topic discussed during the meeting was the presentation of the Trust Registry Catalogue Data document by Carly Huitema. This document was presented for discussion and approval. It aims to provide a comprehensive overview of the trust registry catalogue data and its governance requirements.

The progress on the Issuer Requirements document was also discussed during the meeting. Scott Perry provided an update on the progress of this document, highlighting the need for advanced warning and sufficient time for evaluation.

The meeting also discussed the Governance Architecture Diagram and the Learning and Employment Record Technical and Functional Requirements. These topics were briefly discussed, and it was decided to allocate more time for further discussions in future meetings.

The meeting concluded with a review of decisions and action items and planning for the next meeting. The next plenary session was scheduled for Thursday, October 19, 2023, at 11:00 PT.

Overall, the meeting provided valuable insights into the ongoing work of the Governance Stack Working Group and highlighted the importance of collaboration and discussion in developing effective governance frameworks for dual-stack interoperability.
