TOIP Working Gr...2020-06-22.pptx

Meeting Notes

Recording: This meeting was not recorded

- ToIP Technology Stack Specification (TSS) & Task Over IP Interoperability Profile (TIP) discussion
- Abilash question about alignment with ISO or other SDOs
 - There are technical components in each ToIP layer, which are already standardized (or being) under different SDOs such as W3C, IETF, etc. using the work under DIF
 - Another questions was about cross-ledger interoperability which can be discussed under Utility Foundry WG
 - Question about writing whitepaper - Ajay suggested that a specific Task Force can be formed under TSWG, where the Task Force group can build and release white paper on specific topic.
- Benny's question about interoperability among DID ecosystems
 - Alignment scheme for verifying the verifiable credential
 - How to make payment while a DID holder will verifying on other DID ecosystems - a DID ecosystem has their own payment structure
 - I am looking for a person for developing about what I said.
- Daniel or Matt will reach out to Linux Foundation (Todd) to schedule the APAC meeting calendar with revised time
