Agenda Items

Time	Item	Who
2 min	Welcome & Antitrust Policy Notice	Chair
20 min	Introductions	All
20 min	Review of blueprint outline and challenge area (overview, challenges, zones) ■ Identity binding important, but to be decided on by identity binding group (with cross-pollination) ■ Keep focus on technical questions around implementation of paper-based solutions	All
15 min	Next Steps ■ Focus on paper credential presentation (formats we want to use initially) and see how this extends to paper passes; then think about interop between paper to digital and digital to paper ■ Brainstorm based on key interop questions	All

Presentations -

(PDFs posted)

Recording - *Link*

Notes

1. Welcome and Linux Foundation antitrust policy

2. Discussions on credential vs. pass

3. Discussions on how we can convert paper credentials to VCs (considerations around payload, compression/decompressing to ensure compliance with W3C)

Action Items

1. Meet again this week
2. Put together design requirements of paper
3. Invite paper solutions to present
