Presentation(s)

This is the presentation from [Thomas Cox](#), [Savita Farooqui](#), and the rest of the IEEE 2145 team

Notes

1. Welcome
 - a. Linux Foundation antitrust policy
 - b. Introduction of new members
 - c. Agenda review
2. Announcements — general community updates relevant to the GSWG
 - a. [Interoperability Working Group for Good Health Pass](#) — [Governance Framework Drafting Group](#) is up and going strong
 - b. [Scott Perry](#) and [Drummond Reed](#) have been contributing updates to the [ToIP governance metamodel](#) based on feedback and lessons learned from both the GHP and other governance framework work.

- c. Due to the anticipated "shakedown cruise" that the Good Health Pass Ecosystem Governance Framework will provide (along with other GF work), [Drummond Reed](#) is recommending we not plan to advance the ToIP Governance Architecture spec to WG Approved status until early June.
- 3. Special Meeting Topic: Showcase of the work of the IEEE P2145 Working Group and its sub-groups - Hayley Howe, Denise McCurdy, Kirsten Pomales, Savita Farooqui [Thomas Cox](#)
 - a. Standards are aligned to the Cynefin Framework - Best Practices can be developed from Simple Frameworks
 - b. Standards are needed as products and services become commodities
 - c. IEEE 423K members globally with a recognized standards association (recognized standards USB, etc). Been active in blockchain 50+ standards in development)
 - d. IEEE P2145 - focused on concepts and terminology, research and publish standards, coordinate with other bodies and communicate their output
 - e. All standards are open source
 - f. Lexical Standards group is publishing standard terminology - drafting a publication
 - g. Governance Design Patterns looking at 13 chains along six aspects of core build components of blockchains
 - h. Governance Terms is establishing common vocabulary and terms - 528 terms collected to date
 - i. Done a deeper dive into terms of governance and blockchain governance - model of governance dimensions follows a lifecycle process
 - j. Subgroup on Reputation - Mindmap highlights contributors to blockchain reputation
 - k. Governance and Interoperability - focuses on definition and alignment
 - l. Coordinated roll-out with seminars and outreach.
- 4. Closing/Reminder of [Upcoming Meetings](#)

Decisions

- ☐ none

Action Items

- ☐ Look to engage the P145 folks with the Concepts & Terminology WG
