Notes

- IP and antitrust announcement.
- Pagona asked how drafting was going.
- Daryl has time allocated over the weekend.
- Jan has been attending at IIW.
- Jan would like to talk about how the vaccine information is being used, and levels of assurances.
- We started a discussion on user control. Do we create a section for it, or spread it across multiple sections.
- Chuck suggested that it be brought up in multiple sections.
- Had a discussion regarding what user control actually means.
- Jan suggested an executive summary at the top outlining individual rights and expectations.
- Chuck reviewed with us the privacy rights mentioned in the whitepaper and blueprint.
- Chuck suggested that there is some responsibility within the ecosystem are insuring that others are also following the rules.
- We had a discussion regarding disclosures.
- We had a discussion regarding the importance of participants in the ecosystem. Jan has a diagram that he can add to help illustrate the potential relationships.
- We should be linking back to the blueprint.
- Had a discussion regarding data retention. We can encourage, but it will always be subject to local laws and regulations.
- The right of deletion is similar to the EU's right to be forgotten.
- We discussed data retention in the case of venues and other non-travel. There are contexts that have much less need for identity binding.
- Chuck brought up the potential issue with discrimination.
