| 40 min | Draft Assignments | Stacey |
| 3 min | Wrap up | Chair |

Presentations

Recording

Topic: Good Health Pass - Consistent User Experience

Date: Apr 27, 2021 04:53 AM Pacific Time (US and Canada)

Meeting Recording:

https://zoom.us/rec/share/rUrgZwPoJZvnTYfBwoaBflrSdpnQ9WmimqXHAS6hNAytsVRwKn19Wl_aCzMNcva.i87BCrMSuBOZw1jL

Notes

1. Welcome and Linux Foundation antitrust policy

2. Questions for IATA

- How do you intend to support multi-family credentials? What about layovers?
- How are you thinking about identity binding with the new influx of digital health passes?
 - Would IATA include IDs for domestic use cases (not passports)?
 - How to ensure whatever digital ID solution is created is accepted by governments?
- How to handle push for back-end integration?
- Are they preparing a list of acceptable labs? What is their role in integrating timatics or other providers into back end traveler systems?
- Will they add a new element for IATA standards (barcode, interface standards) - IATA 792 (or other interface standards such as PAXLST)
- Are they advocating that governments should establishment a single set of testing requirements or border entry requirements? E.g., list of acceptable providers, vaccine or testing requirements
 - In general, are they doing any advocacy work?

3. Draft Assignments

- Background = Rebecca
- Zone 0 = Dan
- Zone 1 = Chris & David
- Zone 2 = Chester & David
- Zone 3 = Stacey & Hisanori

4. Topic C

5. Wrap up

Action Items

1. See draft assignments
