Notes

- Antitrust and IP notice.
- Brent did a review of the current status of the drafting document.
- We need text describing the objective of our group.
- There has been some reordering and consolidation of some of our problem statement sections.
- Drummond presented some new versions of some of the explanatory slides. He's looking for feedback.
- We discussed the wording in Problem #3's recommendations regarding "selective disclosure and non-correlating signatures".
- We had a discussion regarding some questions on the applicability of ZKPs in this very specific use case.
- Elli brought up that identity binding will be required for use of a pass in order to use it, which will be sufficient for correlation.
- Drummond mentioned that airlines don't want any of the PHI for their decisions.
- We had a discussion regarding the EU Digital Green Certificate, WHO, and VCI.
- We worked through some of the other problem statements.

Action Items

1. Everyone to continue working on the draft.
