Notes

1. Welcome and Linux Foundation antitrust policy - <http://www.linuxfoundation.org/antitrust-policy>

1. Operational integrity - Integrity of the mechanism vs the of the operations
2. Work on narrative arch
3. Trust reg is about trusting the issuer, when we talk about BBS+ this is more of the concern of the consumer
4. Discussions on what we see as the goal of interoperability
5. Table public DID for future discussion.
6. Will we be producing a trust architecture document - Yes we will likely need this
7. Darrell will create a SWAGER

Document review and clearing comments

Action Items

1. Darrell to finish updates to the document
2. Todd to update the problem statements
