## Notes

- Antitrust and IP notification.
- Review feedback that we received from comments to the document in the review period.
- The major discussion point today was the root issue as to whether or not cover use cases beyond international travel. This has a direct impact on how we resolve a number of comments across the different problem sets.
  - It was suggested that we could include recommendations in two categories, travel and non-travel.
  - It was also suggested that we not deal with the non-travel use cases at all, thereby leaving it up to the individual legal jurisdictions to sort it out.
  - We would like direction from the GHPC Steering Committee on this.
- Governance frameworks do not cover the holders — they cover the other actors in the ecosystem.

## Chat Log

```
00:18:06      Chuck Curran:      Can we add the link to the version you're working on
00:18:16      Trev Harmon:      https://docs.google.com/document/d/1H6hsVVeTfe9YnhKTnqV6h_Q1-
