## Notes

- Did the IP and antitrust announcement.
- Today we are working on getting all of the outstanding comments cleared from our draft.
- Added citation for the WACI-PEX specification.
- There may need to be some additional information regarding how DID-based and X.509-based systems can play together. This doesn't need to be a long discussion, but we need to be more technically specific.
- Drummond noted that the current approach is that X.509 systems would need to provide a URI that would provide a DID method. The Trust Registries draft also needs the same language.
- Drummond is meeting with Savita and Steve in an hour to work on the updated diagrams.
- It's been agreed that an example verifiable presentation definition. There was a discussion about where that would/should exist.
- We had a discussion regarding the OIDC interaction.
- Tony joined, so we returned to the verifiable presentation discussion.
- Brent explained how the presentation definition allowed for multiple ways for the presentation to be fulfilled.
- Drummond noted that what we really need is a section that outlines the specifications for someone to be able to build a solution.
- Drummond will be going through the glossary again, which should pick up the new suggestions made by Daniel.

## Chat Log

00:50:22	Trev Harmon:	Bookmark in the Rules Engines draft to the section that Tony mentioned: <a href="https://docs.google.com/document/d/12YcZDff3qHlNN7QdLh-v8ohkZGYrJgFNlIWgxNtt1c8/edit#bookmark=id.810h5minob9w">https://docs.google.com/document/d/12YcZDff3qHlNN7QdLh-v8ohkZGYrJgFNlIWgxNtt1c8/edit#bookmark=id.810h5minob9w</a>
00:50:23	Drummond Reed:	That presentation definition is the nugget of gold at the very heart of the GHP recommendations!
