Notes

1. Welcome and Linux Foundation antitrust policy
2. Review of Section Draft (Edits made directly in Google doc)

Summary of Key Changes

- Section title changed to "Offline Paper Credentials" to highlight design considerations around offline requirements
- 6.3.1 and 6.3.3 - Revised introduction and background sections to highlight the significant privacy and security concerns and trade-offs related to QR code use
- 6.3.2 - Added new "GHP Design Considerations and Constraints" section to explain necessity of considering offline paper-based options
- 6.3.7.2.4 - Added new recommendations around use of Base32
- Updated section numbers throughout

3. Wrap up

Action Items

1. Rebecca to create blank "cookbook" doc
